

Suitable for:

SMA® PRO First Infant Milk

is a nutritionally complete*, whey-dominant infant milk that is suitable from birth. It can be used for infants who are not being breastfed or for those who are being combination fed.

SMA® PRO First Infant Milk

contains 2'FL.

Not suitable for:

1. Cows' milk protein intolerance/allergy.
2. Lactose intolerance.
3. Inborn errors of metabolism such as phenylketonuria, galactosaemia and galactokinase deficiency.

Shelf life:

SMA® PRO First Infant Milk

powder has a shelf life of 24 months.

DATA CARD
SMA® PRO
FIRST INFANT MILK

From birth onwards

- Halal Certified
- Contains 2'FL

IMPORTANT NOTICE: We believe that breastfeeding is the ideal nutritional start for babies and we fully support the World Health Organization's recommendation of exclusive breastfeeding for the first six months of life followed by the introduction of adequate nutritious complementary foods along with continued breastfeeding up to two years of age. We also recognise that breastfeeding is not always an option for parents. We recommend that healthcare professionals inform parents about the advantages of breastfeeding. If parents choose not to breastfeed, healthcare professionals should inform parents that such a decision can be difficult to reverse and that the introduction of partial bottle-feeding will reduce the supply of breast milk. Parents should consider the social and financial implications of the use of infant formula. As babies grow at different rates, healthcare professionals should advise on the appropriate time for a baby to begin eating complementary foods. Infant formula and complementary foods should always be prepared, used and stored as instructed on the label in order to avoid risks to a baby's health. The product be used only on the advice of independent persons having qualifications in medicine, nutrition, pharmacy, or other professionals responsible for maternal and child care.

SMA® PRO First Infant Milk ingredients

Liquid: Water, skimmed **MILK**, lactose (**MILK**), vegetable oils (sunflower, rapeseed), whey protein (**MILK**), calcium citrate, 2'-Fucosyllactose (2'FL), emulsifier (**SOYA** lecithin), potassium citrate, AA (*Mortierella alpina* oil), DHA (Oil from the microalgae *Schizochytrium sp.*), choline bitartrate, potassium chloride, magnesium chloride, L-phenylalanine, sodium chloride, vitamin C, calcium phosphate, taurine, inositol, ferrous sulphate, L-histidine, nucleotides (cytidine-, disodium uridine-, adenosine-, disodium guanosine-5'-monophosphate), antioxidants (tocopherol-rich extract, ascorbyl palmitate), zinc sulphate, L-carnitine, vitamin E, niacin, pantothenic acid, copper sulphate, vitamin A, thiamin, vitamin B₆, manganese sulphate, riboflavin, potassium iodide, folic acid, sodium selenate, vitamin K, vitamin D, biotin, vitamin B₁₂.

Halal Certified

Whey:Casein ratio: 70:30

Potential Renal Solute Load: 98.6 mOsm/l

Reconstitution rate: 12.9 g liquid/100 ml water

Lactose: 7.3 g/100 ml

Osmolality: 241 mOsm/kg

Osmolarity: 217 mOsm/L

*As required by legislation for all infant formula

**DFE - Dietary Folate Equivalent:

1 µg DFE = 1 µg food folate = 0.6 µg folic acid from formula.

[†]Contains DHA (as required by the legislation for all infant formula)

[‡]Nucleotides value represent innate and fortified levels.

#LCP= Long Chain Polyunsaturate.
