

Cow & Gate nutriprem 2 Post-Discharge Liquid (90ml)

Cow & Gate nutriprem 2 post discharge formula is a Food for Special Medical Purposes for the dietary management of preterm and low birthweight infants post discharge. It is a nutrient-dense formulation, which has been developed to meet the increased nutritional needs of preterm and low birthweight infants prior to and once discharged from hospital. The post discharge formula is designed to bridge the nutritional gap between low birthweight and term infant formula. Cow & Gate nutriprem 2 post discharge formula has higher levels of nutrients than standard infant milks to support catch-up growth for preterm infants. It can be used for infants until 6 months corrected age. It is nutritionally complete and contains prebiotic oligosaccharides (GOS/FOS*) and milk fat, which are currently not contained in other post discharge formulas in the UK. It also contains

long chain polyunsaturated fatty acids

long chain polyunsaturated fatty acids (LCPs), nucleotides, vitamins and minerals to help meet the requirements of preterm bottle-fed infants after hospital discharge. Cow & Gate nutripem 2 post discharge formula is available in 90ml ready-to-feed bottles (hospital use only), and 200ml liquid format, and 800g powder. *Galacto-oligosaccharides/Fructo-oligosaccharides.

Product	Order Code
Cow & Gate nutripem 2 post-discharge formula (Liquid) 90ml Bottle	646925

Indications

Hospital use only

Contra-Indications

Not suitable for intravenous use. Levels of most vitamins and minerals in Cow & Gate nutripem 2 post discharge formula are higher than in infant

milks used for term infants. Cow & Gate nutriprem 2 post discharge formula is nutritionally complete, therefore additional nutrient supplementation may not be needed for bottle-fed preterm infants post discharge.

Preparation and directions for usage

All Cow & Gate products carry preparation instructions.

Ingredients

Water, Skimmed **milk**, Lactose (from **milk**), Vegetable oils (High oleic sunflower oil, Rapeseed oil, Sunflower oil, Medium chain triglycerides (Coconut oil, Palm oil), Evening primrose oil), Galacto-oligosaccharides (GOS) (from **milk**), Anhydrous **milk** fat, Maltodextrin, Whey protein (from **milk**), Phospholipid (from egg), Precipitated **milk** minerals, Fructo-oligosaccharides (FOS), **Fish** oil, Acidity regulator (Citric acid), Calcium hydroxide, Potassium hydrogen carbonate, Potassium chloride, Inositol, Oil from *Mortierella alpina*, Vitamin C, Choline chloride, Emulsifier (**Soy** lecithin), Iron Lactate, Taurine, Sodium chloride, Potassium hydroxide, Zinc sulphate, Vitamin E, Magnesium oxide, L-Carnitine, Cytidine 5'-monophosphate, Niacin, Uridine 5'-monophosphate sodium salt, Pantothenic acid, Inosine 5'-monophosphate sodium salt, Antioxidant (Ascorbyl palmitate), Adenosine 5'-monophosphate, Guanosine 5'-monophosphate sodium salt, Thiamin, Riboflavin, Vitamin A, Vitamin B6, Copper sulphate, Folic acid, Potassium iodide, Vitamin K1, Sodium selenite, Manganese sulphate, Biotin, Vitamin D3, Vitamin B12. **Allergy Advice:** For allergens, see ingredients in **bold**.

Shelf life

9 months. Best before date: see side of bottle.

Storage

Please see packaging for further information. Once opened, unused milk can be kept refrigerated for max. 8 hours. For hygiene reasons, if fed from the 90ml ready-to-feed bottle, discard contents within 1 hour of opening. Store ready-to-feed bottles in a cool, dry place away from sunlight before opening.

Suitability

Halal and Kosher

This is intended to show suitability of products for religious or dietary reasons. Some products may be suitable for kosher or halal diets but only products with Kosher approval or Halal certification have been identified here. Some individual flavours/variants may not be suitable and for more information please call our Resource Centre.
